THE Back Bay Swimming Bath is at last so far [illegible] established fact that it is [illegible]

for Bombay. The strength of the regiment is 7 European officers, 12 native officers, and 444 men.

THE Burmese Embassy was expected to leave Calcutta for Simla yesterday. A Calcutta correspondent informs an up-country contemporary that the reports of recent executions at Mandalay are discredited there, and are said to be either unfounded or grossly exaggerated.

MAJOR BARING'S illness is believed to have been due to the insanitary state of Calcutta, that part of Chowringhee in which his house is situated being particularly malodorous. A contemporary suggests that Mr. Rivers Thompson would earn the gratitude of the whole community if, at the outset of his Governorship, he were to take the question of sanitation in hand and force the Municipality to do their duty.

THE Hon'ble Mr. Justice White, who has just retired from the Bench of the Calcutta High Court, is expected to leave India for England on the 19th of May.

ON the occasion of the departure of Sir Ashley Eden from Calcutta on Monday per s. s. Pekin, "an unusually large crowd, composed of all sections of Calcutta society," assembled to bid him farewell. On Saturday the retiring Lieutenant-Governor received a succession of addresses, including one from the Bengal Chamber of Commerce. At the Civil Ser[illegible]ner, given at the Town Hall, 68 civilians and 80 guests were present. The chair was occupied by the Hon'ble Rivers Thompson.

Two pages of the *Indian Daily News* of Monday last are devoted to reporting meetings held in connection with the presentation of farewell addresses to Sir Ashley Eden.

HER MAJESTY THE QUEEN-EMPRESS has been pleased to approve of the 22nd Bengal Native Infantry and the 5th Bombay Native Infantry bearing on their regimental colours and appointments the word "China," in commemoration of their services in that country in 1862.

A GOOD-SERVICE pension has been conferred on Colonel George Hearn, Madras Staff Corps, who joined the Army as ensign in 1844. Colonel Hearn served in the second Burmese war, and was wounded by a musket ball at the recapture of Billing in 1853. He commanded the 15th Native Infantry in Afghanistan in 1880.

CAPTAIN FERRIES, Assistant Political Agent at Kolhapur, who tried the Kolhapur Conspiracy case, goes home shortly on leave.

THE Lahore paper is informed that the Viceroy will go to Gwalior to pay the Maharaja Scindia a visit, during the present year, probably in November. It is not unlikely that the Commander-in-Chief also may find Gwalior within the limits of his next winter tour.

CAPTAIN ARNOTT, R.E., officiates as Superintending Engineer, Military Works, Beluchistan, during the absence of Colonel Lang.

THE *Englishman* suggests that the Telegraph Department would extend its sphere of usefulness by introducing a rule permitting large customers, such as banks, mercantile firms, and newspapers, to open monthly accounts instead of charging them, as at present, in cash for each individual message they send.

THE Bishop of Calcutta will start on a visitation tour in the North-West Provinces and Oudh on the 30th of May, returning to Calcutta on the 26th of June.

HEAVY rain is reported to have fallen in Calcutta on Saturday evening, and the sky on Sunday was still cloudy. The weather generally in Northern India has been unsettled during the last week, though but little rain has fallen. In Bombay it is beginning to get decidedly warm, though the nights are still reasonably cool.

THERE are other troubles in the Khairpur State, besides the illness of the Mir from the wound inflicted on him in the attempt at assassination a fortnight ago. There have been disturbances in the state of so serious a character that two companies of the 2nd Belooch Regiment were sent from Kurrachee on the 23rd inst. to Larkhana, to be ready to interfere in case of necessity. They were ordered not to enter the Mir's territory unless the Political Agent considered their intervention indispensable. It is believed that the Chief's son has taken advantage of his incapacity in consequence of his wound to raise a rebellion against his authority.

IN supersession of all previous orders on the subject, the Governor-General-in-Council is pleased to prescribe that a public officer proceeding from one appointment to another in the public service on the occasion of his transfer either permanently or temporarily, and whether with or without promotion, shall, if he is allowed or entitled to draw pay or acting allowance during the period of transit, be permitted to draw travelling allowance at the usual rates, unless he is transferred at his own request.

THE reports of the Revenue and Agricultural Department on the state of the season and prospects of the crops throughout India for the week ending the 18th April is summed up officially in the following "general remarks :"—With the exception of a slight shower in two districts of the Punjab and the North-Western Provinces and in three districts of Bengal, there has been no rain in Northern India, nor in the Rajputana and Central India States. In the Central Provinces and the Bombay Presidency there has been some rain in a few districts, notably in part of Dharwar, where, however, scarcity of drinking-water is still reported. There has also been more or less rain throughout the Mysore State, the Madras Presidency, and Coorg. Harvesting of the rabi crops is in progress with good prospects in the Punjab, and is nearly over in the North-Western Provinces and Oudh, where the outturn is estimated to be about an average. In Bengal the outturn is said to be below average in many districts, and on the whole not very satisfactory. In the Central Provinces threshing of the rabi continues. In most districts of the Bombay Presidency the harvest has been completed. In the Mysore State paddy, juar, gram, and sugarcane are being gathered in, and prospects are said to be fair. In the Madras Presidency the reaping of crops is still in progress, with outturns below average. General prospects may be said to be on the whole good or fair throughout the country ; and land is being prepared for the kharif sowings in part of the Bombay Presidency as well as in Berar and the Central Provinces, while in Bengal and Assam ploughing and sowing also are in progress.

MAJOR S. E. H. E. SARTORIUS, V. C., of the 2nd Battalion East Lancashire Regiment, late 59th, who obtained his Victoria Cross during the Afghan war of 1879-80 at the action of Shahjeri, where he was wounded, has been appointed Deputy Assistant Quartermaster-General at Aldershot. Major Sartorius entered the service in 1862, and was Instructor in Surveying at the Royal Military College, Sandhurst, from 1871 to 1875 ; he passed out of the Staff College in 1870.

IN a parliamentary return giving details of the cost of conferring orders, it is mentioned that £78-11-4 was expended in recording the pedigrees of Sir F. S. Roberts and Sir D. M. Stewart on their creation as baronets.

THE Werneth Hall, a magnificent steel screw-steamer of over 4,000 tons, built to the order of Messrs. Alexander and Radcliff, Liverpool, for their Hall Line of steamers trading between Liverpool and Bombay, has been launched at Scotstown-yard on the Clyde. She is fitted with the latest improvements in all departments.

A CORRESPONDENT of the *Pioneer* tells these good stories *apropos de bottes* :—"Would you be surprised to hear that I tasted nothing stronger than milk for a whole year ?" "For a whole year ! I cannot believe it." "Yes, monsieur, but I must confess it was the year when I was at nurse !" Ladies who go down from Paris to assume aristocratic airs in the country are frequently made aware of their inferiority. A rich bourgeois said one evening to a noble lady in Brittany—"Your pearls, madame, are so magnificent that one would almost think they must be imitations," to which the great dame answered—"They probably appear so to you, you have been so short a time accustomed to low dresses and precious stones." But when is a French person, no matter in what walk of life, without a ready response ? A woman was tried the other day for poisoning her husband. "Accused," said the judge in the usual way of bullying prisoners in France, "you have heard the report read of the expert chemists. According to their evidence the dead body contained enough of arsenic to kill ten people. What have you to say in your defence ?" "I can only say, Monsieur le President, that my poor husband was always a great eater !"

THE steamers on the Rhine and Lake Constance have lately been supplied with the Burgin lamp electric light, with a view to illuminating the scenery of the banks on both sides. The experiments are said to have proved very satisfactory and successful. The steamers carry their own moonlight with them.

A CORRESPONDENT of the *Times* states that in order to reassure the Irish-American sympathisers with the Land League movement as to the effect of the Kilmainham No Rent manifesto, a list of the landlords whose tenants have undertaken [illegible] pay no rent until the suspects are released has [illegible] League sources for cir[illegible] branches of the organisation [illegible]ve been issued, and it is offi[illegible]em that they supply evidence [illegible]n in Ireland is "growing broader [illegible]t that the strike against paying rent until the suspects are released has become general, and is growing in intensity and earnestness." It is intended to supplement the No Rent roll with a list of evictions, and it is pointed out that, according to the returns prepared, on comparison with the Government returns as to outrage in Ireland, where, as evidenced by the refusals to pay rent, the Land League policy is strongest and most generally obeyed, the outrages are less in number, in proportion to the population, than elsewhere. Of all the twenty-one counties enumerated, the largest number of promises to pay no rent come from the counties of Tipperary and Wexford. It is stated that in several counties the list is incomplete, and returns are awaited from the other eleven counties.

SOME portions of Ireland appear to be affected with other plagues than Land Leaguers and Moonlighters ; in some of the cities there is much sickness, judging from the last return. The following is the death-rate in the towns for the week ending 25th March :—Belfast 30·8 ; Limerick 31·0 ; Cork 31·2 ; Sligo 43·5 ; Clonmel 49·4 ; and Lurgan 51·1. A return of the death-rate in certain English towns also showed an increased mortality, in spite of the mildness of the season, but not so much as this. No doubt the reduced vitality consequent on the distress of the last few years may in part account for the augmented mortality ; but, as we have seen, the increase is not confined to Ireland.

THE *World* writes strongly on the Lamson case :—"The mind of the public will, by an irrestible impulse, contrast what has been done in the case of the convict Lamson by the Cabinet of Mr. Gladstone with what would have been done by Lord Palmerston. What are the facts ? Here is a man convicted upon the clearest evidence—and, when the chain is complete, no evidence is so strong as circumstantial evidence—of an abominable and singularly cruel murder. There was nothing about it to mitigate the villany of the act. The motive of the scoundrel was clear enough ; he was in dire need of money, and, as a last resource, he deliberately determined to sacrifice the life of a wretched and defenceless boy. He had already unsuccessfully made an attempt of this kind, and he is suspected of having disposed, by similar means, of others whom he was anxious to get out of the way. But it is with proved facts, and not with suspicions, that we have to do. As to Lamson's guilt there is not a shadow of a doubt. The plea of insanity was not even suggested at his trial ; it is palpably absurd now. If it were to be allowed, it would be holding out a premium to murder." The *St. James's Gazette* asks :—"Cannot something be done for Guiteau ? President Arthur has set us the example, and why should we not follow it ? Whatever evidence there is of Lamson's insanity, there is at least twice as much of Guiteau's. He got nothing in the way of money, at all events, for murdering President Garfield ; and vanity is quite as likely to drive people mad as morphia. Sir Henry James should look up the evidence for and against Guiteau, and frame an opinion on it for the instruction of the American Government. Doubtless President Arthur and his friends would be much obliged by a little attention of this kind."

IF the cost of litigation is to be reduced, it is understood, the *Pall Mall Gazette* says, there will be some interference with the scale of counsel's fees. But the interference will probably be by the force of public opinion acting upon solicitors. The fees paid to barristers' clerks are a fair illustration of the tyranny of these charges. A barrister's clerk discharges functions in many instances scarcely above those of a menial servant, and his pay is wholly out of proportion to his services. It depends not on his ability, nor on his utility, but on his master's success. Take the ordinary case of a consultation. The senior counsel's clerk gets 7s. 6d., and the junior's 2s. 6d. ; and the service consists in little more than opening a door, placing chairs, and afterwards applying for the fees of his master and himself. When the junior counsel gets a guinea brief, the clerk gets half-a-crown for taking in the brief ; when a solicitor comes for a conference, the clerk gets five shillings for "fixing" the conference and settling the chairs. And this indirect taxation of [illegible] litigant is nobody's grievance but the unfortunate client's. There is nothing to defend it except the usage, and there is no one to attack it on account of the usage. A big fee to an eminent counsel is not such an abuse. It is paid as a matter of policy to secure unusual talent ; the client may go to whom he likes. Inferior talent can be obtained on cheaper terms. But what would be said if a patient had to pay a doctor's butler at every visit, or to give 5s. or so to the coachman who drove a surgeon to his house ? Barristers should pay their own clerks, and clients should be protected from being mulcted for services they don't need and they don't get.

THE RAJPUTANA RAILWAY AND THE WHEAT TRADE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Allow me to suggest to the millowners of Bombay and neighbourhood that, as many of them are natives and our paternal Government is just now in a very philanthropic mood towards the Aryan brother, a petition to the authorities at Simla through the authorities here, or rather at Mahableshwar, might have some effect in inducing such an adjustment of the rates of carriage of wheat from the North-West and the Punjab as to enable the holders of wheat in those provinces to sell it to the hungry people in Europe. This would have the effect of making available for the purchase of the produce of the mills large sums of money which are now tied up in Northern India.

PRODUCE.

HACK-CARRIAGE FARES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—I have much pleasure in endorsing all the remarks made by "Puzzled" on the necessity that exists for a simpler fare-table for hackney-carriages in Bombay. I live here on an uncertain tenure. Any mail may bring me orders to go east, west, north, or south ; so I keep no carriage, but prefer to take my drives abroad in those very convenient little phaetons that have recently been added to the numerous descriptions of hackney-carriages plying in and around Bombay. But I confess the pleasure is very much marred by the certainty of a discussion either at the beginning or end of my drive as to how much I shall have to pay. I have no doubt many others have the same disagreeable experiences complained of by "Puzzled" and myself, and I dare say if he would send round a letter for signature, addressed to the Municipal Commissioner, praying that the Corporation would take under their consideration the advisability of reforming the hackney-carriage faretable, and assimilating it to that now in force in Calcutta, he would find it extensively signed.

There is no other way that I am aware of for securing the desired end. A directly presented and extensively signed petition by residents and passers through Bombay, moderately worded and respectfully presented, will be likely to command the attention and consideration of the Corporation ; and if "Puzzled" is really in earnest in his endeavours to reform an undoubted evil, he will follow my advice, and if he desires it I shall be happy to assist him. I need not add that my name and address are at his disposal if he chooses to apply to you for them.

THE SUBJECTS OF THE RAO OF CUTCH.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The highly interesting and able article in the *Bombay Gazette* anent the visit of the young Rao of Cutch to Bombay has excited much interest among the Cutchee community. The graphic account is as entertaining as it is circumstantial, and cannot fail to be permanently useful to those who take the slightest interest in the State of Cutch and its people. But I propose to supplement your account with some additional particulars, and thus eradicate a little irritation engendered in certain quarters, as well as save some worthy souls from oblivion. Your remarks about Jairam Sewjee are quite correct, but leave out altogether the well-known Thacore Topun, who recently had the farming of the customs dues at Zanzibar in his hands, and rendered so much aid to Mr. Stanley that the latter has acknowledged the same in his famous book "Through the Dark Continent," with a portrait of the Khoja merchant. Then, if Cummoo Sulliman is a type of the "successful Memon shopkeeper," his formidable rival Ludha Ebrahim is none the less so, and he also hails from Cutch. Again, Dhurrumsey Poonjabhoy and Kessowjee Naik, whatever their present condition may be, are personages of no mean enterprise and fame. The millionaire Kessowjee Jadhowjee, as well as Soondurdass Mooljee, also deserves a prominent place among the Cutchees for his riches. Last, but not least, comes Visram Ebrahim, who also has done some good to his fellow-citizens in "Cutch land," and is a self-made man. He established branches of his firm in Calcutta, the Mauritius, Chittagong, and Zanzibar, and is as good a representative of the Khojas in the trade there as Jairaj Peerbhoy and Currim Ebram could be in China. His sons now carry on the business on an extensive scale, and two of them, Hassumbhoy Visram and Fazulbhoy Visram, both of whom are J. P.'s and have been members of the Corporation, have done some travelling as well. The former, as we all know, has only recently returned from a tour round the world, and was presented with an address by his friends here. The latter two years ago visited the Mauritius, Bourbon, Natal, Zanzibar, Cape Town, &c., where much attention was shown to him by Sir Bartle Frere. No other Khoja has travelled so much, as far as I am aware. Cassumbhoy Dhurrumsey, Faizulla Cassumbhoy, and Rahimboy Alladinbhoy, have all gone over Europe, and two of them have been large merchants, having firms of their own in England. Dhurrumsey was, perhaps, the first who opened a Khoja mercatile house in London, and he organised a bank in India, and built the largest spinning and weaving mill we have. Ebjee Sewjee, Khatao Muckkunjee, Morarjee Gokuldass, Memon Hajee Esmail Hajee Hubib, Hajee Abdulla Noor Mahomed, Hajee Jackeria Mahomed, Cassumbhoy Nathubhoy, and some other leaders may still be quoted as typical successful and enterprising Cutchees. But stop ! I have said that the Visrams would be the last of my present sketch, and it is hardly consistent to go on further. Exit !

A LOOKER-ON.

P. S.—May I add one item more ? There is some talk of their building a line of railway between Mandvi and Bhooj, and perhaps Bhooj and Wadhwan. Hurrah for Cutchee enterprise !—A. L.

GAMBLING IN BOMBAY.—The *Kossid-i-Moombai*, the Mussulman paper of Bombay, says in its yesterday's issue :—"We regret that with all their care and vigilance, the police of Bombay have not succeeded in exterminating the vice of gambling in the city. At present the crime is rife in Mazagon, where, in open daylight, crowds of gamblers are seen to carry on their trade, to the inconvenience of ordinary passers-by. They keep regular patrols and guards to prevent a surprise. We trust Sir Frank Souter will make some inquiries near the Kassarwada Musjid, Mazagon.

Anjoo Mapa, residing at Baba Dhubao-street, reported the theft of gold and silver ornaments and cash of the value of Rs. 160. Mirza Sikakur, residing in the Grant-road, reported the theft of eighteen currency notes for Rs. 10 each from his cupboard some six days ago.

THE TULLEGAUM ACCIDENT INQUIRY.—The further hearing of this case was resumed before Mr. Plunkett, the Cantonment Magistrate, yesterday (Tuesday) afternoon, when four other witnesses were examined—making ten witnesses for the prosecution. We believe there are seven witnesses still remaining to be examined, but it is probable that this number will be cut down, when the case for the prosecution will close. There are not many witnesses for the defence, so that, if Mr. Plunkett inquires into the case regularly every day, we may expect to hear its result before the week closes.—*Deccan Herald.*

THE POONA VOLUNTEERS.—We have just heard that it is not unlikely that the formation of a third company of the Poona Volunteers will take place some time in June next. Captain Cooke, who is at present at Mahableshwur, is using his best endeavours to promote the interests of the Poona officer called out, "A boat right under the bows !" He ordered the engines to be stopped. They were reversed and put full speed astern. By this time the steamer had collided with the boat. If the boat had had a light on board, he should have seen it, and our Assistant Collectors, whose name we have pro[illegible] was drowned in the accident, although life-buoys were thrown out to save him.

The crew of the prow swore that there was a white light burning in a globe which was hanging at the mast.

The magistrate, in giving his decision, said the point at issue was, whether the prow of which accused was the tindal carried a light on the night on which the steamer came into collision with her. The evidence led by the prosecution was of a very conflicting character, and it failed to establish that the accused contributed by any negligence to the disaster by which he lost not only his prow, but a near relative in the person of one of his crew. The magistrate further observed that as all vessels had the right of way across the north-east channel leading to the Prince's Dock, it became the duty of the Port Trustees to take every precaution to prevent a collision of the nature disclosed by the evidence in the case. The accused was therefore discharged.

THE BOMBAY TRINOPTICON DIORAMA.

OWING to its being a Parsee holiday, there was a special performance yesterday evening at the above place of amusement. After an overture with pianoforte accompaniment by Miss Nordt, some of the most interesting scenes of the Zulu war were effectively exhibited. The portrait of the late Prince Imperial, the views of his death and of his body drawn on a gun-carriage, as well as of its arrival at Woolwich, attracted much attention from a tolerably well-filled house. The chief feature of the entertainment consisted in scenes with mechanical effects, specially imported by the proprietor at great cost, which were next exhibited. These were of a dark night at sea, which slowly dissolved into down, followed by sunrise with the mechanical effect of rippling water and clouds on which the sun shone brightly. The next was a view of sunset at sea with a steamer in midocean, which was overtaken by a storm, together with the mechanical effects of riffliug water and flashes of lightning. The ship is then seen on fire, and smoke and flames are seen curling up in the air. In another view a ship is seen struck on a rock ; a life-boat leaves from the shore, and saves the sinking passengers and crew. In the next view is exhibited the Arctic Expedition, with steamers crossing the Atlantic amid tossing waves ; also an ice-berg ; a polar bear appearing on the ice. A boat is then seen in pursuit of the bear : a gun is fired, and the bear is killed and falls over. A view of an Esquimaux village, with the mechanical effect of the radiating *aurora borealis*, was much admired. Much excitement and interest were created by a view of Bombay harbour with the steamers Serapis and Osborne, as seen during an exhibition of fireworks during the late visit of the Prince of Wales here. A beautiful view of a railway bridge, with a railway train crossing it on a fine moonlight night, was the next object which attracted attention. Surpassing all the abovementioned views was one of the "Grotto of Calipso," with a magnificent lake scenc in fairy-land, in the midst of which was observed a grotto made of flowers, corals, &c., rising out of water, in which nymphs were swimming at their pleasure. An exhibition of some comic scenes and chromotropes followed, winding up with a full-size portrait of Her Majesty the Queen in robes of State. The entertainment proved upon the whole a very agreeable one to those who patronised it.

A CHARGE OF NEGLIGENT NAVIGATION.

GOVIND MAHADOO, the tindal of a prow, was yesterday charged before Mr. P. Ryan with navigating his vessel on the 18th March last in such a manner as to endanger human life.

Mr. H. Cleveland, the Public Prosecutor, appeared on behalf of the prosecution ; and Mr. DeSouza, pleader, appeared for the defendant.

Mr. James Smith, a pilot of the Port Trust, stated that on the 18th March last he was engaged to take a steamer out of the Prince's Dock. He went on board the vessel at about 8 p. m. A few minutes after the steamer passed through the dock locks. The night was perfectly dark. He saw the lights of a steam launch anchored at the neck of the channel leading into the dock, at a distance of less than half a mile from the dock gates. The launch had been stationed there expressly for his guidance, and he steered towards her. On that night he could have seen an ordinary fishing-boat light at a distance of about a mile. The tide was running strong. The lights of the steamer burnt brightly, and the steam whistle was in perfect order. The engines were going slow ahead. The chief officer and four seamen were on the forecastle keeping a look-out. When approaching the steam-launch, the chief officer called out, "A boat right under the bows !" He ordered the engines to be stopped. They were reversed and put full speed astern. By this time the steamer had collided with the boat. If the boat had had a light on board, he should have seen it, and avoided the collision. A man on board the prow was drowned in the accident, although life-buoys were thrown out to save him.

The crew of the prow swore that there was a white light burning in

and checked lawless marauders. Let us by al. means do all that we can gradually and cautiously to teach the people habits of self-reliance, and to take a greater share in the management of the affairs of the country; but if we are to be prepared in the future to meet any emergency which may arise we must maintain a strong executive head in each district; and no one really knows the necessity of this better than the native owners of property in the interior.

TENURE OF COMMAND IN THE INDIAN ARMY.

THE following notification appears in Saturday's *Gazette of India* :—

Under the orders of the Secretary of State for India, the following conditions regulating the tenure of regimental commands in the Native armies of India are published for general information and guidance :—

(1) All officers who now hold substantive regimental commands will be granted an extension of command without any conditions (except promotion to the rank of General Officer, or the attainment of the Colonel's allowance) to the 1st April, 1883.

(2) Subject to the above conditions, present incumbents will be eligible to retain their commands until they attain the age of 55 years, or complete a tenure of 7 years' command, whichever may happen first.

(3) Any present incumbent, who on or after the 1st of April, 1883, may not have completed 5 years' tenure of command before reaching the age of 55 years, will be eligible to complete his 5 years' tenure of command.

(4) The immediate successors of present incumbents will be eligible to hold the command of a regiment until the attainment of 55 years of age, or the completion of 7 years' tenure of command, whichever may happen first.

(5) Thereafter, the limits for regimental command will be the attainment of 52 years of age, or a tenure of 7 years, whichever may happen first.

(6) In any case of the Commandant of a regiment, other than present incumbents (paragraph 4), who is required to vacate his command under these rules before he has served for the pension granted for 32 years' service, such officer, on the recommendation of the Commander-in-Chief in India, Madras or Bombay, and with the approval of the Government of India, Madras, or Bombay, as the case may be, may be permitted an extension of command, not exceeding 2 years, towards his 32 years' pension service or such less period as may be required for its completion. But no portion of such special extension of regimental service, or tenure of command, will be permitted to be passed on any leave or furlough except privilege leave.

(7) Officers of the Staff Corps or Indian Army who entered the service before 1st July, 1881, who may elect, on vacating regimental commands, to remain in the service for the attainment of the highest retirement pension, or the Colonel's allowance, will be permitted the option of completing their service at home on the furlough pay of their rank, or of remaining in India on the unemployed Indian pay and allowances of their rank if unemployed.

(8) All regimental commands will continue to be vacated as at present, on promotion to Major-General or succession to the Colonel's allowance.

(9) These rules will take effect from this date, so far that any commandants of regiments hereafter appointed will be the next in succession to present incumbents referred to in paragraph 4.

(10) These rules are applicable also to the Punjab Frontier Force and the Hyderabad Contingent, and so far as regards the limit of age prescribed by them to other regiments under the direct orders of the Government of India.

MADRAS.

OBITUARY.—We hear that Mr. George Simmonsen, of the firm of Messrs. Oakes and Co., expired in London. He had gone home suffering from cancer in the throat and succumbed to the disease. His loss is much felt by the employés in the Madras firm, as he was always a kind master.

ATTEMPTED SUICIDE.—There was an attempt at suicide in the British Regiment at Bellary the other day, a soldier trying to shoot himself. The bullet fortunately did no further harm than causing a wound on his chin; he is now in hospital, and will be tried after his recovery.—*Madras Times.*

THE MADRAS UNIVERSITY.—By the death of Dr. Jesudasen Pillai, the last of the Native Fellows named in the Act of Incorporation of the Madras University in 1857 has departed. In that year thirty-eight gentlemen were appointed as Fellows, and of these, only Mr. Fowler, Inspector of Schools, remains alive in India. This year (1881-82) the University has lost three native Fellows by death, the Hon'ble C. Runganatha Sastriyar and Dr. Jesudasen Pillai, both of 1857, and Sundaramaya appointed in 1877.—*Mail.*

A NEWSPAPER SUSPENDED.—We received the following "Notice" by post-card yesterday :—"Owing to the partial demolition of the Office of the *South of India Observer*, by the falling of the roof occasioned by the recent heavy rains, the presses, forms, &c., are buried in the ruins, and the publication of to-day's (22nd) issue is rendered impossible. We crave the indulgence of our subscribers and advertisers. We are glad to say that no injury was sustained, beyond a few bruises, by any of the staff. The press is being repaired, and will, temporarily, to Norfolk House, and [illegible] resumed on Monday."

SUFFERING AT S[illegible] writes to us [illegible] from A[illegible] instance [illegible] being damaged only by the fall. How came this to happen that no responsible man was in charge at the time? The Mysore authorities should certainly see that such works are under the charge of competent men, instead of allowing proprietors to imperil the lives, not only of their employés, but also of the general public."

N.-W PROVINCES, PUNJAB, AND OUDH.

A PLAGUE OF DOGS.—The Lahore paper calls the attention of the authorities to the swarms of pariahs that infest the station, more especially in the neighbourhood of the Anarkali gardens and the Museum.

PATIALLA.—Dr. Skeen, on being relieved by Dr. Thomson, left Patialla on Saturday. A farewell entertainment was given to him by Sir Dewa Singh, K. C. S. I., President of the Council of Regency.—*Civil and Military Gazette.*

HEALTH OF THE PUNJAB.—The report by the Sanitary Commissioner, Punjab, on the general health of the Province during the last recorded week—that ending Saturday, the 1st instant—says that the total deaths registered from all causes in the Province were 6,766 against 6,854 in the previous week and 7,570 in the corresponding week of the previous year, giving respectively an annual death-rate of 20·1, 20·3 and 22·5 per 1,000 of population. There was one death registered under the head of cholera.

NOTICES.

FOR A PAYMENT OF ABOUT FIFTEEN RUPEES a MONTH a man of good health, aged 20, may secure in the Standard Life Office a sum of FIVE THOUSAND RUPEES, payable at the age of 55, or at death should it happen beforehand. It is an advantage to effect Provisions of this nature EARLY IN LIFE, as by delay the rate of subscription increases; death may occur before the provision is effected; or health may fail and render the life ineligible for assurance.—Standard Life Office, Bombay, Jan. 1882.

SULPHOLINE LOTION.—An External Means of CURING SKIN DISEASES. There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, obstinate skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural complexion of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d. Made by J. PEPPER and Co., London. Sold by TREACHER and Co.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections and in wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by Chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition. Sold by TREACHER & Co.

TARAXACUM and PODOPHYLLIN—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

DR. DE ROOS'
CONCENTRATED GUTTÆ VITÆ, OR VEGETABLE LIFE DROPS.
THE alchemists of old spent years in endeavouring to find out the means of transmuting the baser metals into gold, but in vain. It was, however, reserved for a physician of the 19th Century to make a far more valuable discovery in occult science—the result of deep research into the arcana of Nature's mysteries—which is here offered to the world; and the pleasing results of a quarter of a century, during which time this wonderful medicine has been tried in every quarter of the globe, all corroborate the most sanguine of the Inventor's hopes. Thousands of voluntary testimonials from grateful patients, testify to the fact that from this remarkable tonic alone, new life has been imparted to numbers of debilitated individuals; and it is not too much to say that hundreds of persons are at the present day in full enjoyment of their mental and bodily powers—in thorough good health—who previously were confirmed hypochondriacs, had been given up by the faculty as incurable, and left to drag out the remainder of their existence a misery to themselves, and a continual anxiety to their friends.
This great life-reviving medicine gives vitality and strength to the most shattered constitutions. It not only strengthens the system but purifies the blood, and promotes a healthy circulation of the fluids, thus imparting strength and tone to the nerves, enlivening and invigorating both body and mind. It greatly improves the appetite, and restores the digestive powers, whilst for dyspeptic persons it is unrivalled. Those who (from long residence in the climates) suffer from langour and relaxation, as also all persons going to the East or West Indies should provide themselves with this important article of health.
Youth and age equally participate in the miraculous effects of this wondrous medicine, for whether the body be debilitated in early life, or sinking under the advance of years, a few doses will speedily afford assurance of returning health, by giving tone to the muscular and nervous systems, and through the organs of digestion, renovating the whole constitution. To the young it affords health, strength, and spirits, in place of lassitude and debility; while to the aged and infirm it assuredly furnishes great relief and comfort, by gently and safely invigorating the whole corporeal frame; and although it is not put forward as imparting immortality, it will certainly gild the autumn of declining years, and, in all cases, calmly and serenely protract the close of life. For females of all ages, as also for delicate children who cannot take cod-liver oil, the Guttæ Vitæ will be found a great boon—being far superior in its strengthening properties, and at the same time so pleasant to the palate that it can hardly be called a medicine. To married persons, especially, this preparation will prove invaluable; giving strength and vigour in place of lassitude and incapacity for exertion. Price, 11s. and 33s. per bottle. The large size contains sufficient for four weeks.
